Aspiring Master's student of Electrical and Computer Engineering looking for Software Developer opportunities for Summer '23. Eager to create scalable and efficient software solutions to solve real-world business problems by building Full Stack Applications using NodeJS, ReactJS, AWS and MongoDB. Working in fast-paced environments has helped me develop strong resilience, free-flowing creativity and developing systems from scratch. Striving to take on challenges which broaden my horizon of skills and experience.

Education

JANUARY 2023 – DECEMBER 2024

M.Eng - Electrical and Computer Engineering, University of Alberta, Edmonton, AB, Canada
Specialization: Software Engineering and Intelligent Systems

JULY 2018 – JUNE 2022

B.Tech - Computer Science and Engineering, Vellore Institute of Technology, Vellore, India
CGPA: 9.14/10

Experience

APRIL 2022 - PRESENT

Software Developer, Jify | Mumbai, India

- Developing a fin-tech mobile application using TypeScript, AWS, DynamoDB and Serverless to provide earned-wage access solutions to corporates.
- Leading technical integrations of multiple Human Resource Systems to facilitate onboarding of employees on the application.
- Leading the software solutioning of financial investment features such as real-time digital gold transaction.
- Integrating Razorpay payment gateway on to the application for a smooth checkout experience.
- Building applications, email schedulers and scripts for internal business management.

FEBRUARY 2020 – SEPTEMBER 2021

Co-Founder/CTO, OnTribe | Mumbai, India

- Designed and executed the technical solutioning of an HR-Tech start-up web application built on the MERN stack (MongoDB, Express, ReactJS, NodeJS).
- Implemented cloud storage for uploading pictures, files and videos using Cloudinary.
- Created our own meeting scheduler using Google Calendar APIs instead of using third-party services which reduced our technical costs by 30%.
- Launched Beta version on 5th October 2020 and ended on 5th December 2020 and collected a user base of 1000+ students and 50+ recruiting companies.
- Website**:** https://ontribe.in

JANUARY 2020 – MARCH 2020

Frontend Developer, MediaKrafts | Vellore, India

- Wrote clean and readable HTML, CSS and JavaScript code, integrating design, extensions and third-party APIs according to the website needs.
- Increased responsivity of the website for most devices and operating systems.
- Designed webpages to be consistent across most highly used browsers like Firefox, Google Chrome, Safari.
- Worked on the official MediaKrafts website: https://mediakrafts.com/

Skills

- **Programming Languages:** C, C++, Java, Python
- **Frontend:** HTML, CSS, JavaScript, ReactJS
- **Backend:** NodeJS, Express, Socket.io, TypeScript
- **Database:** MySQL, MongoDB, Firebase, DynamoDB
- **DevOps:** AWS, Serverless, Git

Personal Projects

- COVID – 19 Tracker
  A COVID - 19 tracker website which displays data and demographics for every country, and the states of India.
  Link: https://covid19tracker.cyclic.app/

- Multiplayer Tic-Tac-Toe Game
  A real time, multiplayer tic-tac-toe game.
  Link: https://saranshm.github.io/Multiplayer-Tic-Tac-Toe/public/html/index.html

- MERN Movie App
  A movie app developed using the MERN stack including login/signup, trending/popular/top rated movies, filter movies using genre and search and star/un-star favorite movies.

Leadership and Volunteering Roles

- As a part of the IEEE-CS core committee member, I built:
  - API endpoint for the board members of IEEECS-VIT: https://github.com/SaranshM/IEEECS_API.
  - Chapter's official website: http://www.ieeecsvit.com/.
  - Flagship event ARCS'20 website and registration portal: http://arcs.ieeecsvit.com/.
- Part of the recruiting committee while recruiting freshers for IEEE-CS web team, VIT, 2019.
- Volunteered as a tutor of Data Structures and Algorithms for an Ed-Tech startup, SwiftPrep, June 2021.
- Received incubation from Google Cloud, Nasscom 10,000 Startups, MongoDB and Segment for my startup, OnTribe, January 2021.
- Managed and coordinated a flagship technical event of IEEECS-VIT called ARCs '20, VIT, February 2020.
- Presented a hands-on workshop on Selenium WebDrivers on behalf of IEEECS-VIT, VIT, October 2019.
